Pro
by LogMeIn

Best-in-class Antivirus now included with LogMeIn Pro.

Introducing LogMeIn Antivirus Powered by Bitdefender

LogMeIn Pro's antivirus solution protects your computers from known and unknown threats, including malware, viruses, and sophisticated online threats. LogMeIn Antivirus powered by Bitdefender is now included in your Pro subscription at no additional cost.

If you currently pay for an antivirus solution, consider replacing it with LogMeIn Antivirus powered by Bitdefender to consolidate your software solutions and save yourself time and money.

If you rely on a free antivirus solution, consider upgrading to LogMeIn Antivirus powered by Bitdefender to improve your security and avoid becoming a victim of a cyber-attack.

What to know about LogMeIn's new partner Bitdefender:

- Global cybersecurity leader
- 500M+ systems protected in 150+ countries
- Outstanding Product Award by AV-Comparatives
- Best Performance, Protection & Repair Award by AV Test

Why Free Antivirus Solutions Don't Cut It Anymore

- When it comes to securing your computers, inaction is unaffordable.
- Over the last five years, the number and cost of cyber-attacks for small businesses has been on the rise.
- 61% of small businesses reported a cyber-attack in the past 12 months, up from 55% the previous year.
- The cost of an attack or breach is roughly $1M for SMBs, and over half go out of business within 6 months as a result.

How to add LogMeIn Antivirus to your computers:

1. **Sign in** to your LogMeIn Pro account.
2. Once in the account, **click Antivirus** next to your computer.
3. **Click Install** LogMeIn Antivirus **and follow the steps** on the screen. (LogMeIn Antivirus will remove Windows Defender. If you use another antivirus solution, open the uninstall wizard and remove it from your computers before installing LogMeIn Antivirus.)

   To install LogMeIn Antivirus on more than one computer, repeat steps 2 and 3 for each computer within your LogMeIn Pro account.
